

High-Flow

DRAIN COVERS & FRAMES

Highest rated ASME
flow rates meeting
VGB compliance

- For concrete pools
- Available in multiple square sizes to satisfy varied installation requirements
- Fits residential or commercial pools
- ASME A112.19.8a-2008
- For new pool construction and replacement
- Exclusive inner frame for compliant cover replacement
- Built by a name you can trust

Hayward High-Flow Drain Covers

Information and specifications

Applications

- Residential and commercial square pool drain covers
- For new pool construction and replacement
- Exclusive inner frame for compliant cover replacement
- For facilities with maximum flow rate requirements

Installation

- Fast, simple installation
- Mandatory installation effective December 19, 2008
 - The Virginia Graeme Baker (VGB) Pool and Spa Safety Act promotes the safe use of pools, spas and hot tubs by imposing mandatory federal requirements for suction entrapment avoidance. The Act is administered by the U.S. Consumer Products Safety Commission
- IAPMO certified to ASME A112.19.8a-2008
- 1-year limited warranty, 7-year life

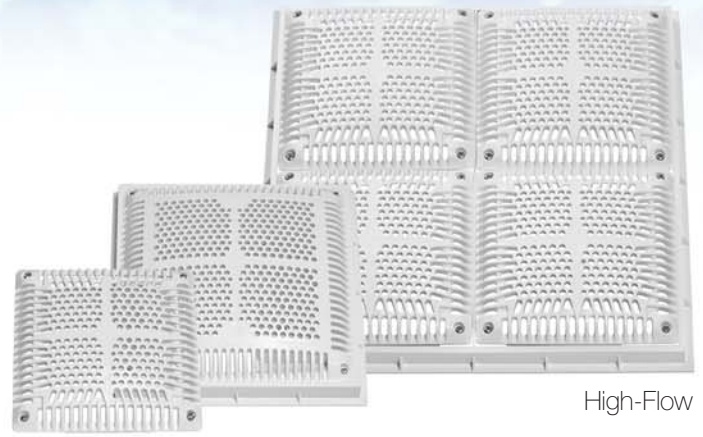

Suggested SVRS Secondary Layer of Protection for Single Drain Installations

- The only SVRS to both vent the pump suction line to atmosphere and turn off power to the pump motor
- Automatic restart in protection mode, eliminates nuisance tripping
- Directly monitors and reacts to change in suction outlet systems
- VGB-compliant
- Complete functional system check
- Meets or exceeds all relevant ASME performance standards

Note:

See "Guidelines for Addressing Entrapment Hazards with Pools and Spas," U.S. Consumer Product Safety Commission, Publication #363-009081, (301) 504-0400 or www.cpsc.gov/cpscpub/pubs/363.pdf
