

Fiberglass Sand Filter are constructed by the most update engineering technology, The improvement of flow ability provides an extra pure water filtration. The winding design allows the filter becoming more solid , chemical corrosion-resistant and UV resistance.

Fiberglass Sand Filter are the most recommendable equipment for the application of Swimming pool and Sauna centers.

FILTRATION BED HEIGHT 0.6 m

Maximum temperature: 50°C(122°F)

Maximum working pressure: 2.5kg/cm²
